PROFESSIONAL PROFILE

Final-year Bachelor of Science in Business Information Technology student at the University of Dar es Salaam, with hands-on experience building web, mobile and AI-enabled systems. Skilled in Laravel, Flutter, Node.js, MySQL/PostgreSQL, REST APIs, Git/GitHub and practical ICT support. Experienced in translating real organisational problems into secure, user-centred digital solutions across local government, education, housing and small-business operations.

PROFESSIONAL EXPERIENCE

Kilindi Traders Digital License Management System (KDILMS)

2025 – 2026

Full-Stack Developer (Final-Year Project) | Laravel, PHP, MySQL, NEXTSMS, MonkeysCloud

Live demo: <https://kdilms-kdilms-kdilms.monkeys.cloud/>

- Developed a web-based licensing platform for Kilindi District Council covering trader records, licence issuance and renewal, debt tracking, SMS reminders, reporting dashboards and audit logs.
- Implemented role-based access control and TAUSI data import/validation workflows, and supported cloud deployment, DNS/SSL configuration and production troubleshooting.

Student Support LLM Platform

2026

Full-Stack Developer (Academic Project) | Python, FastAPI, Streamlit, Ollama, RAG

- Built a locally hosted AI student-support assistant using a lightweight Llama model, a FastAPI backend and a ChatGPT-style Streamlit interface.
- Added a custom university FAQ knowledge base and Retrieval-Augmented Generation pipeline to improve response relevance and privacy, and documented deployment, logging and production-readiness improvements.

Mobile-First Rental Platform MVP

2025 – 2026

Product Developer | Flutter, Node.js, Express.js, PostgreSQL

- Designed a role-based marketplace for tenants, landlords and administrators with property listings, search and filters, map discovery, contracts and notifications.
- Built the product architecture around JWT authentication, REST APIs and PostgreSQL data models, applying trust-and-safety design to address rental fraud and listing transparency.

Employee ID Card Generation Portal

2024

Web Developer | PHP, MySQL, QR Code and PDF Generation

- Created an authenticated portal for employee-record management, QR-based verification, print tracking and PDF identity-card output, reducing manual record handling.

RJAY Barbershop Digital Booking & Brand Platform

2025 – 2026

Product Designer / Business Owner | Web booking, scheduling, service catalogue, digital marketing

Live site: <https://rjaybarber.shop>

- Designed customer booking journeys, service categories, appointment scheduling and admin availability controls for a real small-business environment.
- Applied responsive design, branding and social-media content planning to strengthen online visibility and repeat business.

PRACTICAL EXPERIENCE

Kilindi District Council — ICT Unit, Tanzania

July – Nov 2024 and July – Nov 2025

Field Practical Training

- Provided end-user ICT support, installed and configured desktop/laptop software, supported biometric devices and troubleshoot printers and office equipment.
- Assisted with asset labelling, data handling, digital records and routine network/device support, strengthening understanding of public-sector service delivery and user-focused technical support.

EDUCATION

Bachelor of Science in Business Information Technology

Oct 2023 – Expected Jul 2026

University of Dar es Salaam, College of Information and Communication Technologies | GPA: 3.3/5.0

- Relevant areas: software engineering, database systems, systems analysis and design, artificial intelligence, business intelligence, cybersecurity, IT audit and controls, project management and research methods.

LEADERSHIP, ENTREPRENEURSHIP & INNOVATION

Founder / Operator — RJAY Digital Hub & RJAY Barbershop

2024 – Present

- Manage a student-led small business involving customer service, staff coordination, budgeting, branding, digital marketing and day-to-day operational improvement.

Product Builder — Rental Platform Innovation

2026

- Prepared an MVP and startup concept focused on trustworthy housing access, digital contracts, safer transactions and a scalable East African rental marketplace.

TRAINING & PROFESSIONAL DEVELOPMENT

NMB Nuru Yangu Scholarship Mentorship Programme (2026): Leadership, confidence, self-awareness, career planning and professional development

National Service Training (JKT) — 822 KJ (Jun 2023 – Sep 2023): Discipline, teamwork, basic security and productive-work training; awarded Grade A for work competence and conduct

CORE COMPETENCIES & TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Dart, SQL, HTML, CSS, basic Python

Frameworks & Platforms: Laravel, Flutter, Node.js, Express.js, FastAPI, Streamlit, Android Studio

Databases & APIs: MySQL, PostgreSQL, SQLite, SQL Server, database design, REST API development and integration

AI & Emerging Technology: Ollama, local LLM deployment, Retrieval-Augmented Generation (RAG), prompt engineering, AI application development

Cybersecurity & Data: OSINT and web-security exercises, security-header review, password-security concepts, data import/validation, dashboard and reporting concepts

Tools, Methods & Delivery: Git, GitHub, Linux/Ubuntu, XAMPP, Postman, VS Code, Figma, Agile/Scrum, sprint planning, UAT, SRS documentation, testing and troubleshooting

Professional Strengths: Problem solving, analytical thinking, communication, teamwork, leadership, adaptability, research, technical documentation, attention to detail, customer service, ability to work under pressure
