Dar es Salaam, Tanzania | +255 787 550 399 | ruhumbikamtumbajohn@gmail.com
LinkedIn | GitHub

PROFESSIONAL PROFILE

Final-year Bachelor of Science in Business Information Technology student at the University of Dar es Salaam with practical experience in full-stack web development, database systems and ICT support. Experienced in developing Laravel/PHP and Python/JavaScript applications, building REST APIs, validating data, troubleshooting systems and supporting deployment. Strong problem-solving, teamwork and documentation skills, with readiness for full-time work and relocation when required.

CORE TECHNICAL SKILLS

Backend Development: Laravel, PHP, Python, FastAPI, Node.js and Express.js

Frontend Development: JavaScript, HTML, CSS, responsive interfaces and Vue.js fundamentals

Databases and APIs: MySQL, PostgreSQL, SQL, database design, validation and REST API development

Development Tools: Git, GitHub, Postman, Linux/Ubuntu, VS Code, XAMPP and command-line tools

Software Delivery: CRUD development, authentication, role-based access control, testing, debugging, UAT and technical documentation

RELEVANT TECHNICAL EXPERIENCE

Kilindi Traders Digital License Management System (KDILMS)

2025 - 2026

Full-Stack Developer - Final-Year Project | Laravel, PHP, MySQL, JavaScript, NEXTSMS

- Developed modules for trader records, licence issuance and renewal, debt tracking, SMS reminders, dashboards, reports and audit logs.
- Implemented role-based access control, data import and validation workflows, and supported testing, deployment, DNS/SSL configuration and production troubleshooting.

RJAY Barbershop Booking System

2025 - Present

Full-Stack Developer / Business Owner | Python, JavaScript and HTML

- Built and operated a customer-facing booking solution for a real small business, covering service selection, appointment requests, scheduling and customer information.
- Applied Python backend logic and JavaScript frontend interaction while improving responsive user experience, business operations and digital customer service.

Student Support Application

2026

Backend and API Developer - Academic Project | Python, FastAPI and Streamlit

- Built a locally hosted student-support application with a FastAPI backend, interactive interface and structured knowledge-base workflow.
- Gained practical experience in API communication, input processing, testing, logging and application documentation.

Employee ID Card Generation Portal

2024

Web Developer - Academic Project | PHP, MySQL, QR Code and PDF Generation

- Developed an authenticated portal for employee records, QR-based verification, print tracking and PDF identity-card generation.

PRACTICAL WORK EXPERIENCE

Kilindi District Council - ICT Unit

Jul-Nov 2024
Jul-Nov 2025

Field Practical Training - Two Placements

Kilindi, Tanzania

- Provided end-user ICT support, installed and configured desktop and laptop software, and assisted staff with day-to-day technical issues.
- Supported biometric devices, troubleshot printers and office equipment, and assisted with routine network and device support.
- Assisted with ICT asset labelling, data handling and digital records while developing teamwork, responsibility and public-sector service experience.

EDUCATION

Bachelor of Science in Business Information Technology
